

oilfino Chain Oil

DESCRIPTION

Saw-chain adhesive oil which is made from high-quality low aromatic base oils and selected additives to achieve good adhesion and to prevent spin-off. Selected additives ensure excellent chain lubrication and thus protect guide rails and chains against wear.

PROPERTIES

oilfino Chain Oil is designed for the lubrication of saw chains and guide rails on power and frame saws. It offers protection against seizure, rubbing and annealing. Usage of adhesive additives effectively prevents the chain from spin-off, corrosion and rust.

SPECIFICATION

- ISO VG 100

Attention: Saw-chain adhesive oils are not suitable for lubrication of engines (admixture to fuel).

Specific Data	Unit	oilfino Chain Oil
Density at 15°C	kg/m ³	887
Kinematic viscosity at 40°C	mm ² /s	100
Kinematic viscosity at 100°C	mm ² /s	13,6
Viscosity index		91
Flash point	°C	268
Flow point	°C	-28
Structure		Adhesive
