

oilfino Varius G 620

DESCRIPTION

oilfino Varius G 620 is a synthetic low-friction gear oil for highly loaded manual transmissions for use in commercial vehicles highest mechanical and thermal stress. Particularly suitable for use in shift, deflection and transfer gearboxes of Mercedes Benz commercial vehicles. The use of synthetic base oils and additives tailored to them surpassed today's practical requirements.

PROPERTIES

oilfino Varius G 620 offers excellent wear protection and excellent oxidation and temperature stability even with extreme operation and toughest conditions. The selected synthetic base oils with the appropriate additive technology guarantee a very good after flow behavior at low temperatures and a high lubrication safety at high operating temperatures. oilfino Varius G 620 lowers maintenance costs and increases economy through extended oil change intervals according to the manufacturer's instructions.
